

Sister in Love (©2003 Music & Lyrics by Thomas Krug)

Far away

Have you gone forever

Not meant to stay

Will return to me never

And I close my eyes, think of you

Somehow can't believe it's all true

Always I believed

Too many times you had to withdraw

Couldn't come as I wished close to you

Didn't you know I loved you all the more

We were children then playing in our father's garden

Life was young and your heart so full of joy

I say farewell to my sister in love

I say farewell to my sister in love

We were children then playing in our father's garden
Life was young and your heart so full of joy

I don't want to follow you
Not prepared to see it through
Why had you so soon to die
For you loved as I love life

I say farewell to my sister in love
I say farewell to my sister in love

We were children then playing in our father's garden
Life was young and your heart so full of joy

And I say it again to my sister in love
I say farewell to my sister in love
