

Still in Love (©2003 Music & Lyrics by Thomas Krug)

I see you always having fun
Whatever place you come along
I never saw you
Any time, you know
Take care for me the way I am

I know, I know what's going on
We never walk quite alone
You never thought of
Any time a way
To let me love you, so I say:

Oh, won't you come closer
I'll never think it's all over
Something's there telling me where
All my loving's way
Forever and a day
'Cause I still love you
Here I am

You are so beautiful, my love
I like the way you dance around
It's always
Such a funny thing
When I kiss your hair I'm so afraid

I ever hardly dare to try
But here I'm asking you now why
For I love you
Any time you know
How can I make you feel it now

Oh, won't you come closer
I'll never think it's all over
Something's there telling me where
All my loving's way
Forever and a day
'Cause I still love you
Here I am

Oh, won't you come closer
I'll never think it's all over
Something's there telling me where
All my loving's way
Forever and a day
'Cause I still love you
Here I am
